

K-Love is a local radio signal that I listen to. It has provided years of encouraging music and has been a blessing to me and my family. If K-Love were to be displaced by an LPFM broadcaster providing other programming it would effect many thousands of people that normally listen to K-Love. This is a radio station that has continually provided encouraging music and help to people that were struggling from things like marriage problems, depression, and people who were struggling with many other numerous things. If it is displaced by an LPFM there may be many thousands of people that would lose the opportunity of listening to their encouraging music. Many radio stations now a days don't provide encouraging music that is helpful to the hearer but a lot of the times is music that encourages wrong actions rather than right. Please consider this as you are making the decisions about LPFM, and help keep radio stations like K-Love on local radio signals that reach FM listeners. Thank You and Jesus' blessing be upon you as you make your decisions.
